Looks like they may be less than last year. As the nine year cycle rolls around thinks next year will be different. Working towards they certified the levies two weeks ago the state is being slow and are saying October 24. Will work on these and see where things are. Can see what the state thinks the levy will be for the current year but it is shut off in September. Values going up does not mean that taxes will go up. Will be glad to get these number in. Have a great community.

Felt they were just a little early. When they were at the IAC meeting they talked about this again. If they could get some signage around the courthouse and any other areas they may know where they could put this to get the information out. Will begin around April 1. Can do this different ways. Need this for insurance purposes. Mentioned today is end of the fiscal year can pay bills through October 15 but have to be dated September. Do have the green sheets for them. The salaries will take effect tomorrow. One week will be old salary and one on the new salary. Went through and had them match the step & grade. Asked that they check these and make sure the hourly rates are right. Do not just look at them please check them. Do not need to get these back but confirm to her or Marilyn that they look good.

9:34:35 AM Chairman Hancock said the census according the State of Idaho receives about $1,400 for each individual. Point out this is an important thing. Want to get their fair share of the distribution of funds. It is important to keep this county running. Do a lot more with fewer bodies than a lot of counties.

9:38:56 AM Deputy Prosecutor Weston Davis is in room

PROSECUTOR – PAUL BUTIKOFER

- DEPUTY PROSECUTOR POSITION – (ACTION ITEM)
- PLANNING & ZONING CONTRACT FOR PROFESSIONAL SERVICES – (ACTION ITEM)

9:42:16 AM Paul is here to ask that they fund the deputy prosecutor position. Also here it is necessary to keep Paul Ziel on for three months. Has a contract. Chairman Hancock asked if Weston put this together. Weston said that he did prepare this proposed professional service agreement together anticipating keeping Paul Ziel on until December 31 with a ceiling amount of $9,000. Believe it is the same contract as before. Paul said this would be funded from the line the commissioners moved over. Chairman Hancock asked if this would be renewable based upon need if there is additional need past the three months. Weston said they can always renew any contract would have to come back to the board and have a contract signed. There is not an automatic renewal. This would expire as of December 31. Of course additional need could be presented. As with any contract if there is a termination provision any contract can be renewed.

9:43:53 AM Paul said he is asking they make a finding to keep Paul Ziel on. Has not hired anyone yet and does not want to lose the work that Paul Ziel has already done. This would be in compliance with the Attorney General decision. Would be funded from his line. Once he gets a new hire Paul Ziel and Mike Winchester will be working on Planning & Zoning for a transition period to finish up some projects. Chairman Hancock said they will both be working with the department. Kevin said that his proposal would be to keep this up to one year then if the need still exists they can move forward. Does not want to redo this every three months. Weston respects this for where their need and support is. By continuing to find a necessity is where they run into an issue with the Idaho Attorney
General decision. This is then a job. The discretion to who hires and for how long has been clearly identified. This is a conservative reading of the statutes but does not want to advise the county any more than conservatively. Advise Planning & Zoning and who is hired the finding would be by Mr. Butikofer. Would make sure there is an actual necessity then they are in compliance. This is something they know how large the law is. Would like to catch everything was still a finding of necessity when Paul Ziel was hired. In a tough spot on this. Recognizes where Mr. Hathaway needs support. Commissioner Clark said he agrees with Weston but when they determine necessity today it is hard to jump mid ship in three months with the items Planning & Zoning is working on. All of them are aware that the things they are working on will take more than a few months to accomplish. If they get a new employee but if they find the necessity is not sure three months is quite enough time would at least like to see six months. Then they can determine the necessity is there to continue with Mr. Ziel.

Chairman Hancock said he realizes and understand what they are trying to do. Trying to get the necessary support. They are planning on bringing on another deputy prosecuting attorney that will allow more time to be dedicated to Planning & Zoning. There is a transition period. There will be a learning curve for the new hire and Mr. Winchester. Then they will have everyone up to date and are sensitive to Mr. Hathaway’s concerns. Commissioner Young said they still have the option can assess this in three months. Mr. Davis said they could renew this for another three months. Kevin asked if they could do six months then they have a longer commitment for Mr. Ziel. Commissioner Young personally thinks they can leave this as three months. Paul said that Weston will still be available. If at the end of the three months it is necessary based on case-by-case basis will come back to make that finding. At this time is not comfortable. Would rather get in and see what needs to be done. Chairman Hancock said they do not want to leave Planning & Zoning without legal services but sounds like they will have services from Mr. Winchester and Mr. Davis.

Weston wants to make another issue clear. This is not about putting people in their place. Need to understand the lines between elected offices. Respectfully what Mr. Hathaway is proposing is for them to make an imposition on Mr. Butikofer. Wants to make sure Mr. Hathaway is covered. Worked with Mr. Hathaway at least a year before Paul was involved and Naysha before that. Of course he will still be a resource to Kevin and Mike. At the same time what needs to be clarified temptation to exercise authority from one elected officials office to another elected officials office. This concerns him. Want to be clear on this relationship. This is unique because they are helping with a department under their area. Wants to make agreements where possible but this is Paul’s decision who is asking for authority. Typically he supports all departments but this is such a need with growth to the community and a change in staff. There is a lot of additional support that needs to be given and the idea is to have everyone up to speed. Chairman Hancock said they see this in the State Government. Has specific attorneys assigned under the Attorney General Office. They want the same dedication for the service for Planning & Zoning. Needs to make sure they are well served. Will have three months to make this determination. Appreciates Mr. Butikofer’s willingness to do this. First they will need to look at approving the position and then approve the finding and contract for three months. Have funded the position but have to approve it based on their policies.

Motion by Commissioner Young to approve new hire of a deputy prosecuting attorney for the Prosecutors Office. Second by Commissioner Clark. Roll call taken. Commissioner Clark – aye, Commissioner Young – aye, Chairman Hancock – aye. Motion passed.

Chairman Hancock said they need to approve the contract that the necessity exists to help with the transition for the next three months. Commissioner Clark does not totally agree with the timeframe of the necessity. They need to accomplish the things they are working on. Not sure on this if it is just a transition period. Trying to get things accomplished. Paul said if he finds a necessity he will bring this back to the board. Chairman Hancock said he would like them to interact with Mr. Hathaway to make sure they keep him informed.

Motion by Commissioner Clark to make a finding for necessity for Paul Ziel to work with Planning & Zoning working on updating policies, the comp plan, transportation plan, capital improvement plan and Municode. This is with FEMA to plan and map for emergencies and hazardous situations. Need to mitigate these the best they can. Will be helpful for them. Showing a lot of confidence in working in this area. Good fit for the county. Need to have redundancy. Need to submit the application. Rebecca said this is the training in Maryland. Rebecca said from Emergency Management standpoint this builds their capabilities. This is a critical piece and is completely supportive. Would forward this to the state. COPIER PURCHASE – (ACTION ITEM)

10:52:57 AM Kevin is anticipating purchasing a copier they have had their current one eight or nine years. Still working but do not want to be down where they do so much copying. When they print large prints they tie up the copier for a long time. Propose to move the older copier to the back and use as a backup then would purchase a new one for up front. Chairman Hancock said based on these prices Valley is the lowest maintenance costs and purchase costs. Garn would recommend this. Kevin said he budgeted for this for coming year. Garn said that the Prosecutor uses a Sharp. The Toshiba One has usually always come in lowest. The Sharps are easier to program and set up. More user friendly. Service has been good from both companies.

10:56:06 AM Motion by Commissioner Young to approve Planning & Zoning to purchase the Sharp MX-507B for $6,200. Second by Commissioner Clark. Roll call taken. Commissioner Clark – aye, Commissioner Young – aye, Chairman Hancock – aye. Motion passed.

Some will do a limited release to the owner. All municipalities are different. If they are required to euthanize they do charge an additional euthanasia fee because they are a no kill facility. It is a $30 flat fee which is what they are charged by the veterinarian. Their rate is less than one percent. Paul said they could possibly have criminal restitution. If this were to happen the county pays this out of a particular fund. Sheriff Anderson said one animal could be impounded with court order for up to $1,800. Deputy Wolfe has only had one that came close. Did impound it for quite a while but was not near this cost. Paul asked funding. Chairman Hancock said they have $3,000 in the budget. Will have the Sheriff’s Office put in these comments. Weston added Idaho Code. Made a note on court ordered. Kristin would love an opportunity to return and answer any questions from the Sheriff’s Department as well. Would like to have the facility manager and them meet. Standard is to amend an agenda they need to have a finding of an emergency situation which includes financial loss or financial interest. One of the proposed individuals for a liquor license was not notified for today’s agenda. It is his understanding this license expires today. Want to be considered today so they can still run their business. Have three options. Can declare an emergency meeting with 24 hour notice. Can have another meeting two days out. Did have a complaint on a road out in Montevideo so Luis has been cleared and will be going out to do that this week. Had a call west of Roberts their grader hit a main line on 2100. Individual thought it was county responsibility to pay the repairs of this line. They should be held harmless if this is in the right-of-way. Planned to do an overlay on 500 N. There is a syphon culvert that needs replaced so may move this to next year. Next road is 3600 E so will be overlaying on this. Chip seal on this next year. Earlier deposited $1,230.24 for use on the employee recognition this year. When they make the plans on how this flows and what will need to be done. Colleen reminds they will have an added expense in the past the prior commissioner cooked potatoes. Chairman Hancock said someone else may want to do this. Jeremy did the deserts. Kristine said they have an organization in town that does catering if they want to see if this is an option. Chairman Hancock said Broulim’s does. Lil’ Mike’s does but prefer to just do the meat. Rebecca said Carmel Tree does. Kristine said this is Chris Merrill and has a sample menu for her Treasure’s conference. Not sure they want someone to work on this and they can get ideas to bring in to them. Wanted to remember about the money that is available. Chairman Hancock said they have a lot of options. Would probably be cheaper to do it the way they have been doing it than have a caterer. Broulim’s will just do the roasts. Kristine said they can kick some ideas around. Have three orders ready. Have the purchase orders all ready. Have a purchase of five 700 megahertz radios. Three for Central Fire two for Rigby PD.
